

Effective 7/1/2016

Part 2
Insulated Concrete Forms

15A-6-201 Polyurethane insulated concrete forms.

- (1) Notwithstanding any other provision of this title, a governing body in the state that issues a building permit may not:
 - (a) deny issuing a building permit to a project solely because the project uses polyurethane insulated concrete form block that complies with Subsection (2); or
 - (b) require a project to surface flame retardants on polyurethane insulated concrete form block that has a flame spread that is less than or equal to 25.
- (2) A project may use polyurethane insulated concrete form block if:
 - (a) the polyurethane insulated concrete form block is manufactured using expanded polyurethane foam that:
 - (i) has a flame spread index that is less than or equal to 50;
 - (ii) has a smoke index that is less than 350; and
 - (iii) is capable of withstanding fluid pressure created by fresh concrete; and
 - (b) the project is designed and stamped by a structural engineer licensed in the state.

15A-6-202 Non-polyurethane insulating concrete forms.

- (1) Notwithstanding any other provision of this title, a governing body in the state that issues a building permit may not:
 - (a) deny issuing a building permit to a project solely because the project uses non- polyurethane insulating concrete form block that complies with Subsection (2); or
 - (b) require a project to apply additional flame retardants to the surface of non- polyurethane insulating concrete form block that has a flame spread that is less than or equal to 25.
- (2) A project may use non-polyurethane insulating concrete form block if:
 - (a) the non-polyurethane insulating concrete form block is manufactured using foam plastic insulation that complies with applicable requirements in Title 15A, State Construction and Fire Codes Act, for flame spread index and smoke development index;
 - (b) the non-polyurethane insulating concrete form block complies with any other requirements applicable to insulating concrete forms in Title 15A, State Construction and Fire Codes Act; and
 - (c) the project is designed and stamped by a structural engineer who is licensed in the state.
